

MOHAK MEHTA

+91-8377934958 | [Personal Email](#) | [College Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SKILLS

Languages: C++, Python, Java

Core Concepts: Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks (Basics)

Frameworks / Technologies: Node.js (Backend Basics), Flask

Databases: MySQL, Firebase, Elasticsearch

Machine Learning: TensorFlow, Computer Vision, NLP

Development: Backend Development, Rapid Prototyping

Tools & DevOps: Git, GitHub, Docker (Basics), Vercel

Operating Systems: Windows, Linux

PROJECTS

Parda Faash | Personal Project | 2025

- Built an NLP-based fake news detection system using Sentence Transformers (all-MiniLM-L6-v2) for semantic classification.
- Processed and analyzed textual data to classify news as real or fake using preprocessing and model tuning techniques.
- Designed the system for real-time prediction through scalable and modular architecture.

Sujhaav Dehi | Personal Project | 2025

- Developed a recommendation engine using collaborative filtering and content-based filtering approaches for personalized recommendations.
- Performed data preprocessing, feature engineering, and similarity analysis to improve recommendation accuracy.
- Evaluated recommendation quality using ranking metrics and optimized the model for scalable predictions.

OG Grahak | Personal Project | 2025

- Built a machine learning pipeline to predict customer churn using classification algorithms and structured customer data.
- Conducted exploratory data analysis, handled missing values, and engineered features to improve prediction performance.
- Improved prediction accuracy from 74% to 92%.

HACKATHONS

- Finalist – NASA International Space Apps Challenge
- Finalist – Makeathon 8 '26 (Thapar Institute)
- Finalist – CodeSlayer '25 (NIT Delhi)
- Finalist – Synergix Hackathon '25 (VIPS)
- Top 200 Teams – Paranox 2.0 Hackathon

CERTIFICATIONS

- Job Simulations (Forage): JPMorgan Chase & Co., Deloitte, Goldman Sachs, TATA, GE Aerospace
- Machine Learning with Python – IBM (Coursera)
- Artificial Intelligence & Machine Learning – Kodacy
- Test Automation – BrowserStack

RESEARCH PUBLICATIONS

- Digital Transformation for a Resilient Pharmaceutical Supply Chain: A Multi-Criteria Approach to Prioritizing Barriers — 2nd International Conference on Optimisation Techniques and Engineering Technology, June 2024
- Navigating the Intersection of Technology, Sustainability, and Ethics in Engineering Education — ICMDISR, June 2024

EDUCATION

B.Tech – Computer Science & Engineering | Dronacharya Group of Institutions (AKTU) | *Expected 2027* ·
CGPA: 7.0

Class XII · Manav Rachna International School, Haryana (CBSE) · 67.16% · 2023

Class X · Manav Rachna International School, Haryana (CBSE) · 82.33% · 2021
